Castle Defense 360 Security Consulting, a certified Service Disabled Veteran Owned and Operated Small Business, in cooperation with the National Sheriff's Association, has developed a new certification standard for the Security industry. This course has been developed for Houses of Worship Safety and Security teams.

This first of its kind program is focused on providing an advanced level of training to Houses of Worship Security staff by offering a unique set of additional skills to add to their value and capabilities. One of the key goals of this certification program is to officially certify team members nation wide in a variety of security related operations to add legitimacy to their task. We are driven to make this course a new mandated standard for all Houses of Worship security team members.

This course is designed for larger houses of worship with access to funding and medium to large security teams.
